Community Health Needs Assessment Priorities

Behavioral Health
(Mental Health and Substance Misuse)

Community Benefit Highlights**

Community Health Education

Hosted two childbirth education and maternal mental health classes.

Behavioral Health

The emergency and obstetrics departments are using telehealth to address behavioral health needs. A key measure in place requires documentation in patient charts for individuals who score high on the Edinburgh Scoring guide, mandating a screening or appointment.

Behavioral Health

The hospital is addressing staffing needs by partnering with educational institutions and external agencies. Key initiatives include a LPN and RN student apprenticeship with Lake Region State College, offering clinicals to nurse practitioners for recruitment, and utilizing Health Source for traveling emergency department and hospital providers.
