REHABILITATION SERVICES

(701) 572-1848

Our Rehab Services include occupational therapy, physical therapy and speech therapy. The services are designed to accommodate the unique needs of patients of all ages requiring rehabilitative care.

Dry Needling uses a fine needle or filament to relax trigger points in muscles to decrease pain, increase range of motion, and restore function in a variety of musculoskeletal dysfunctions. Patients with a variety of conditions can benefit from dry needling including those with neck, back, knee, hip and shoulder pain. Those with muscle spasms and strains, sports injuries and even those with headaches.

Lymphedema treatment is focused on reducing swelling and controlling pain. Treatment options may include exercise, wrapping, massage and compression to help encourage lymph drainage.

LSVT Big and Loud are treatment programs geared towards those with Parkinson's or other neurological conditions who have difficulty with moving and balance or decreased vocal loudness.

OCCUPATIONAL THERAPY

Occupational therapy is a health care profession concerned with the development, recovery and maintenance of daily living activities. Occupational therapy may include education, exercise and the use of devices which compensate for permanent or temporary loss of function.

appointments can be scheduled by calling 701-572-1848 and referrals may be faxed to 701-572-2476.

SLEEP STUDIES - IN LAB AND IN HOME

Many commercial insurances require prior authorization before a sleep study may be scheduled. Please contact your patient's insurances to ensure all prior authorization requirements are met; then fax prior authorization information, order and require paperwork to (701)572-1687. Our staff will call the patient to schedule an appointment
