

Imagine better health.SM

MyChart

MyChart is a secure, online tool connecting patients to parts of their medical record.

Patients who have registered with a CHI St. Alexius Health clinic or hospital are granted access. *(Please stop by a registration desk to register.)*

To access the patient portal, you will need computer access with an Internet connection or a smart phone. Information is secured by a personalized ID and password known only to the patient.

Access your loved one's records

Link your loved one's accounts to yours for convenient access to appointments, test results, immunization records, growth charts and more.

- Children age 0-12, parent/guardian is granted full access to the child's MyChart record.
- Children age 13-17, parent/guardian is granted partial access to the child's MyChart record *(such as immunizations)*.
- When a child reaches age 18, parent/guardian no longer has any access to the child's MyChart record.
- Adult proxy is granted full access to the MyChart record.

Once registered for MyChart, you can download the MyChart mobile app.

Once registered on MyChart, you have access to the following information:

View your medical information online

- Review your medications, immunizations, allergies and medical history
- Receive test results
- Review health education topics and discharge instructions from your provider

Stay in touch

- Communicate with your provider's office via a secure MyChart message

Manage your appointments

- View past and upcoming appointments

Manage your account

- Make a payment online
- View any outstanding balance
- Send a message to the billing office

Need Help with MyChart?
