

# *ND Violence Prevention Program Within My Reach Facilitator*

## **What does it mean to be a Within My Reach Facilitator?**

- Making a difference in your community by eliminating intimate partner violence through prevention efforts.
- Educating at-risk individuals on healthy relationships and providing them with the tools and skills they need to be successful in their relationships.
- Creating awareness of intimate partner violence and providing community members with strategies to address it.
- Working with engaged individuals in your community and surrounding areas to become an agent of change.

## **Facilitator Benefits**

- Invitations to educational events provided by experts in the field.
- Paid mileage and stipends for WMR Facilitators providing local workshops in grant communities.
- Workshop curriculum, resource materials, and supplies provided.
- Support and guidance provided by local CHI Violence Prevention Coordinators and program staff.
- Technical assistance available from PREP, Inc.

## **Annual Time Commitment**

- Attend our annual IPV Summit (up to one full day) and learn the fundamentals of intimate partner violence.
- Participate in our Within My Reach Facilitator Training (up to three full days) and learn everything you need to know to facilitate sessions in your community.
- Provide workshops to individuals in your community throughout the year. With input from stakeholders each local team sets annual activity goals unique to community needs. Several WMR Facilitators are active in each community and workshops can be divided amongst them. Additional time may be spent meeting with program stakeholders, planning local events, traveling to/from events, and completing minimal amounts of paperwork.

## ***About Within My Reach:***

***Within My Reach is a relationship skills and decision making curricula for individuals who are single or in relationships. It's comprised of 15 units, each requiring about one hour of teaching time. It's evidence-based, participant driven, flexible in format and interactive.***
