

# CELEBRATING 100 YEARS

**1940's Delivery Room**

The U.S. officially entered into World War II, and by the mid-1940's, the baby boom was in full swing! Surgical child-birth looked a little differently than it does today. New moms began hearing about the benefits of natural childbirth and less invasive birthing options.

This year, CHI St. Alexius Health doubled our midwifery team to serve the growing families in our community. The addition of a surgical c-section suite, also offers the latest technology, allowing for a safe delivery and recovery all in one room by our very own Fareed Kadum, MD.

**The Birthplace**

**Women's Health Team**

At CHI St. Alexius Health, we aren't just treating patients – we are caring for our family, friends and neighbors. We were created in uncertain times to provide health care throughout the decades.

Today, our legacy continues by offering Williston's first cancer center, pediatric clinic, neurology clinic and so much more. Learn more about your community hospital at [CHIStAlexiusHealth.org/centennial](https://CHIStAlexiusHealth.org/centennial).
